DID YOU KNOW?
Every school district in this country has military connected children and youth

Less than 1% of U.S. population serves in the uniformed Armed Services

2M
Nationally, 2 million children have lived through a parent’s deployments

1.1 million of the military-connected children are 5-18 years old

Active duty children move 6-9 times during their K-12 education. Three times more than civilian classmates

80%
of these children and youth attend U.S. public schools

MIC3
The Interstate Compact on Educational Opportunity for Military Children supports eligibility, enrollment, placement, attendance and graduation of military students in each state.

PARENTS

40%
of men and women serving in military today are parents. This is unprecedented.

Over 2 million children have a mother or father who has served in Iraq or Afghanistan, many have served multiple times

It is important to remember that children are serving too when their parent serves our country. They face their parent being present but absent. They are courageous, brave and make many sacrifices.
